

Juan Felipe de Aquino

Full Stack Developer

Curitiba, Brazil (UTC-3) · Open to remote / relocation · juanfedaq@gmail.com

SUMMARY

Full Stack Developer with 3 years of experience building websites and web applications with React, Vue.js, JavaScript, PHP (Laravel), Python and MySQL. Strong front-end foundation in structuring and styling responsive interfaces with HTML5, CSS3 and SASS/SCSS, plus hands-on experience creating interactive 3D web experiences with Three.js. Background in graphic design and video (Figma, Photoshop, After Effects, Premiere Pro, Blender), which helps bridge design and engineering. Proactive, adaptable across industries, committed to continuous learning and teamwork.

EXPERIENCE

Full Stack Developer · Combi

Jan 2023 – Present

- Develop websites and web systems end to end, from UI layout to database integration.
- Build interfaces and reusable components with React and Vue.js, styled with HTML5, CSS3 and SASS.
- Implement back-end features with PHP (Laravel) and Python, including MySQL data modeling and queries.
- Create interactive 3D web experiences with Three.js (React Three Fiber and TroisJS).
- Translate Figma prototypes into responsive, pixel-accurate pages.

TECHNICAL SKILLS

Front-end: JavaScript, React, Vue.js, HTML5, CSS3, SASS/SCSS, responsive design

Back-end & databases: PHP, Laravel, Python, MySQL

3D for the web: Three.js, React Three Fiber, TroisJS (Vue)

CMS: WordPress, Elementor

Design & video: Figma, Adobe Photoshop, Adobe After Effects, Adobe Premiere Pro, Blender 3D

Other: Computer hardware, Microsoft Office

EDUCATION

Associate Degree in Systems Analysis and Development · Universidade Positivo, Brazil 2022 – 2026 (in progress)

Technical Diploma in Information Technology · Escola Estadual Pedro Macedo, Brazil 2010 – 2013

COURSES

HTML, CSS & JavaScript: semantic structure, Flexbox and positioning, CSS variables, responsive design and deployment, dynamic pages with JavaScript, logic through animations and games.

PHP: fundamentals, arrays and collections, strings, file I/O and streams, exception handling, object-oriented programming.

WordPress: building sites with Elementor and Figma, responsiveness, visual effects and plugins.

Video, motion & 3D: Premiere Pro program (editing, timing and pacing, VFX integration, web video), video production, motion design, 3D modeling and animation in Blender.
